

Time	Monday, 03.09.2018	Tuesday, 04.09.2018	Wednesday, 05.09.2018	Thursday, 06.09.2018
Ort	RUB, Building ID	RUB, Building ID	RUB, Building ID	RUB, Building ID
	Foundations of Usable Security	Psychological Aspects and Methods in Usable Security	Cybercrime	Ethical Aspects of IT Security
08:20-08:45	Registration			
08:45-09:00	Welcome address: Prof. Dr.-Ing. Christof Paar			
09:00-10:30	Prof. Sascha Fahl (Ruhr-Universität Bochum) "Engineers Are Users Too: Why a Holistic Approach to Human Factors in Cybersecurity Research Matters"	Dr.-Ing. Lydia Kraus (Masaryk University) "Hedonic smartphone security mechanisms: design and challenges"	Dr. Daniel Thomas (University of Cambridge) "Measuring security and cybercrime"	Sara Correia (Swansea University) Dr. Daniel Thomas (University of Cambridge) "What are research ethics?"
10:30-11:00	Coffee break			
11:00-12:30	Prof. Blase Ur (University of Chicago) "Data-Driven Methods for Improving Passwords and Making Online Tracking Transparent"	Elissa Redmiles (University of Maryland) "Measurement Meets Usability: Applying Survey and Economic Methods to Usable Security"	Dr. Alice Hutchings (University of Cambridge) „Cybercrime in the sky“	Sara Correia (Swansea University) Dr. Daniel Thomas (University of Cambridge) "How do we ensure research is ethical?"
12:30-14:00	Lunch (Mensa)			
14:00-15:30	Prof. Blase Ur (University of Chicago)	Elissa Redmiles (University of Maryland)	Dr. Alice Hutchings (University of Cambridge)	Reflection and Evaluation
15:30-16:00	Coffee break			
16:00-17:15	short scientific lectures from young researchers	short scientific lectures from young researchers	short scientific lectures from young researchers	
17:30 – open end	Dinner on the campus	Visit of the Fiege brewery	Optional: Planetarium
